-Scene - creating scenes in the app to turn on/off devices together

-IR learning - learning the remote that is not included in our IR database.

"No more unnecessary remote controls on your coffee table"

With the new R4294 from WOOX you have a new smart device in your living room that makes it possible to control all your infrared devices via the handy and free WOOX Home app on your mobile phone.

World's best IR database used

Remotec

The R4294 is equipped with the world's best infrared database from Remotec which is known from the best infrared control equipment in the world that is many times more expensive than our new R4294 while the R4294 offers you the same functionality.

Set up

You connect the R4294 with the included USB cable to for example a USB port of your TV or to a USB adapter in your wall power socket so that it is supplied with power. Then simply connect the R4294 with your WiFi router via the free WOOX Home app and it really starts, now you open the R4294 on your WOOX Home app and you can start scanning and adding your infrared equipment.

Your TV, the TV receiver, the radio, your air conditioning or your audio receiver. You can connect all devices with an infrared eye with the new WOOX R4294 and the great thing is that the database is set so wide that the same equipment from lesser known brands will be found quickly and can be linked to this universal remote control. He works with more than 8000 different products from more than 2000 brands worldwide that are in the database and the database grows with the appearance of new infrared devices in the market.

Automation

If you want to switch several devices on or off at the same time or if you want certain devices to start or go out at a specific time or moment, you can set this very easily using the automation function of the WOOX Home app, also known as "scenes".

Voice control

Like all other WOOX devices, the R4294 works with the supportive voice control devices from Amazon Alexa and Google Assistant, so it's cool to say "Hey Google put TV on Channel1" at home and see that this actually works!

Voice control?

The R4294 Smart Universal IR Remote also works with voice control by Amazon Alexa and Google Assistant. When your R4294 is connected in the WOOX Home app and WOOX is connected to your Alexa or Google account the R4294 automatically will be added to Alexa or Google as well. You can use it to voice control your remote, for example when R4294 is connected as IR remote for your TV; "Hey Google, turn TV ON" or "Hey Google, switch airconditioning temperature to 20".
